

# Competitive Baseball

BMBA offers players competitive ball for those individuals showing a desire to play ball at a higher level of competition. The commitment from the player and parents is more involved in that games are scheduled to be played on weekends from May through to July with team practices held during the week. Travel is involved as games can be played at any one location within Alberta on weekends. Tryouts/evaluations will be conducted in early spring and additional fees of approx \$225 will apply.

The following summarizes the weekends of league play that have been scheduled for the upcoming 2010 season. Coaches expect players to commit and attend the majority of the games throughout the season.
